## Santid) CHEF

puro zymil

## Italy

\&e Poor market performance in most of the segments, linked to the generalized decrease in consumer demand
te The Company undertook some important actions to rationalize the industrial structure
Le ltaly is keeping its market positions, with some marginal losses in market shares, mainly in favour of private labels

## Russia

## Se Market growth has slowed down

E Positive volume and turnover growth linked to a focused commercial policy, a better management of the promotional activities and the launch of new pack sizes
\&rofitability improved thanks to the carry over of the price increase of 2011 and a favourable trend in milk price

## Canada

## Beatrice:

Ste Market performance is uneven with an overall strong pressure on pricing: decrease in Pasteurized Milk and Natural Cheese, growth in Yogurt and in Snack
Se In 2012 the Yogurt competitive arena has significantly changed with the entrance of a new player with a relevant investment in both product range and communication

Wer Milk and Yogurt market share have slightly declined, Snack has increased and Natural Cheese remained stable

Innovation was directed mainly on Yogurt (KIK launch, new Astro Greek and Original new variants)
K Turnover and EBITDA show a consequent slight decline (respectively -1.5\% and -2.2\%)

## LAG

© Ole Overall Cheese market performance shows a positive trend, particularly in value, driven by an exceptional milk price growth. The categories where LAG is present, nevertheless, are in general declining (Chunk Mozzarella, Ricotta and Soft Cheese)
\&et LAG confirms its leading position in the most important categories
\% 2012 has seen the start of the migration from local brands to Galbani
Ter Turnover is stable with a significant increase in EBITDA

## PRECIOUS

## Venezuela

## parmalat

Frica Santid)
Ste The economic environment still very tough in 2012 with strict Government control of consumer prices of the key categories in which Parmalat competes

Pose Powder milk consumption grows against 2011 shortage. Also Juices show positive trend, especially in the UHT segment
Stere Profitability negatively effected by the increase in milk price and labour cost without a proportional increase of retail shelf prices

## South Africa

## parmalat

Sositive performance of Parmalat market shares in the most profitable categories

* Volume and Turnover are growing, but profitability suffers from the difficulties in transferring the production and distribution cost increase on the final retail shelf price

## Australia

Re Market shows an overall moderate increase with positive trend on Pasteurized Milk and Yogurt and negative trend on Flavoured Milk and Dessert
Ste Positive market share performance across all categories, with correspondent increase in Volume and Turnover
Ste Double digit growth for both Turnover and EBITDA

## Parmalat Group - 2012 Results Presentation 2012 Financial Statement

Revenues December 2012 vs 2011

EBITDA December 2012 vs 2011

New Activities includes the data of the activities acquired in the third quarter of 2012.
(*) Excluding the Venezuelan operations, EBITDA stated at constant scope of consolidation and exchange rates would have grown by $2.6 \%$ in 2012.
